Master in Computer Science

About me

I'm a web developer living in Sfax, Tunisia. Currently, I spend my days to be more and more professional in the world of web development to be one day an expert. From back end programming (Native PHP, CakePHP, Symfony2) to front end engineering (HTML, CSS, bootstrap, and JS/JQuery) my experience grow with happiness and passion. Also, my dream is to be involved in big projects and make innovative ones.
